Shopping List

Item	Quantity	Description
1 x 8 x 48"	1	Knot free board
Golf tees or marbles	20	two sets of 10

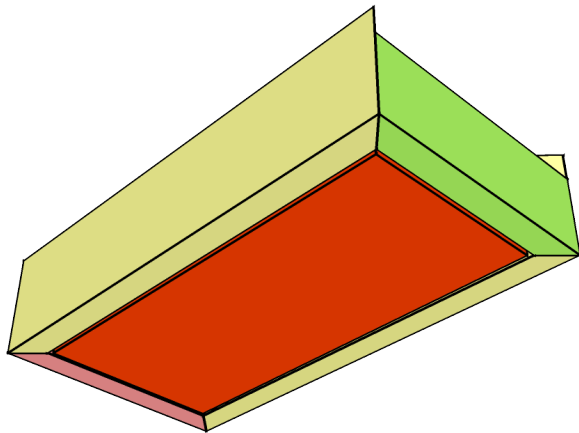

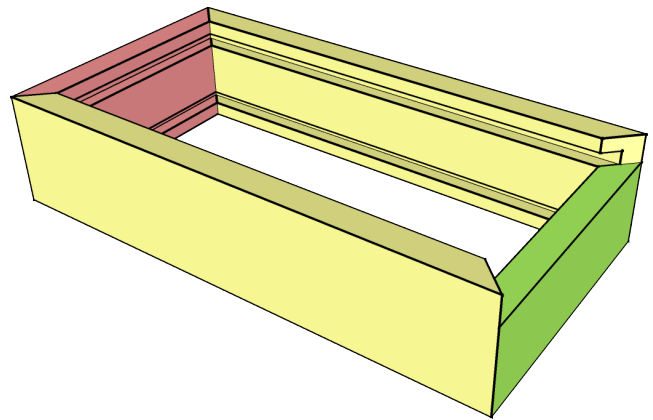

This plan shows a box constructed with mitered corners. Feel free to whichever joinery method you choose. You should be able to get all of your parts out of a 48" piece of 1 x 8.

1

Dry fit your box and make sure all of the dados line up. The top of the short side should line up with the bottom of the top rabbet on the other sides.

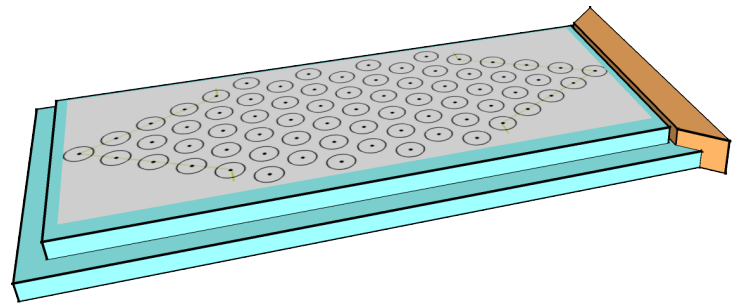

2

After confirming that the bottom panel fits as well glue the box together. Make sure the bottom panel is floating and not glued in place.

3

Glue the short side piece to the top panel. This piece will slide with the top panel to gain access to the inside of the box.

4

Tape the included pattern to the top panel and mark all of the center points. Drill the appropriate size holes for the playing pieces you choose to use. Finish as you wish and enjoy!
